- Always looking out for other students to help out. Literally sits in a corner and watches over the lab just to see who raises their hand next.
- Easygoing
- I appreciated how during office hours, they would go around from time to time on each student to make sure they could answer any questions the students had which made it easier for students to ask questions as it took off some of the pressure for students to initially reach out.
- The instructional assistant is relatively kind and relatable and also provides good advice.
