1. Please describe this person's greatest strengths as a Instructional Assistant.  
*Please keep your comments constructive and professional, abiding by the Principles of Community*

- AMAZINGGGGGGGGGGG
- Considering how difficult the labs have been, Gorby has been so helpful with clearing up any dumb questions I may have had(and I had a lot). He never made me feel bad about how stupid my questions were and he was always really clear in his explanations. He was also really knowledgeable regarding all the different technology we used, which really helped when I didn't know how to use or troubleshoot something.
- Great at explaining the content
- Jean is very encouraging and explains everything from the basics. He checks in with me to make sure I understand everything he says too. Sometimes he'll even draw on the board.
- Knowledge of the course material and equipment. Is eager to assist and help to understand what mistakes are being made with the equipment.
- very helpful and explains well

2. Please describe this person's greatest weaknesses as a Instructional Assistant.  
*Please keep your comments constructive and professional, abiding by the Principles of Community*

- He is too amazing! His greatest weakness is that he has none.
- His biggest weakness was the fact that he had to help other students too, I had to wait a bit to get my questions answered sometimes.
- Vera is short lol

- Was hard to get questions answered in earlier labs as he was busy answering other students questions.

3. Please detail other characteristics of the Instructional Assistant (if applicable).

*Please keep your comments constructive and professional, abiding by the Principles of Community*

- great personality and eager to help
- He's pretty chill and relaxed. Seems like a pretty cool dude.

4. I would recommend this Instructional Assistant to other students.

8 (88.9%):	Strongly Agree

0 (0.0%):	Strongly Disagree

5. Do you have any other comments to add to your evaluation?

*Please keep your comments constructive and professional, abiding by the Principles of Community*

- The videos on the labs were not helpful with understanding the labs. It was easier to understand once the IA's went over the material; however, this was often done individually with different pairs and may have been more beneficial to go over as a group.
